Air Traffic Control System

Lindsey Wingate and Sadie Sorenson
Team SegFault

Methodology: Agile Software Development

**Working software over comprehensive documentation

1. Create an airplane – design elements

2. Airplane movements – more design elements

3. Airplane coordination

Issues Encountered and Resolutions:

1. Adding separate classes as elements

2. Drawing airplanes and surrounding "safe space"

3. registering clicks for plane creation

4. coordinating airplanes

Learning Statement

1. Java Swing

2. Moving Objects within a range
