CS 492/493 Progress Template:

Instructions: *Each team member should enter their activities performed for the capstone project in the last two weeks, as well as their expected activities for the next two weeks, along with anything holding them up on completing their activities. These should be discussed by the team and their advisor(s) during the weekly/biweekly meetings, and the advisor(s) should sign and date the sheet indicating a correct assessment of the team's progress. This needs to be scanned and uploaded to moodle.* ***200 words minimum per team member required for credit across the three questions.***

Team Member #1: _____

What I did since last progress report:

Since the beginning of the project I have designed a final landing page and created a draft page for the display of the maps. I have also received the login information for the server to load the pages.

Anything holding me up on my last progress report's expected activities:

Nothing so far.

What I plan to do before the next progress report:

Get comfortable with live ndatlas webpage. Design a page with the information about the project, students, and history of the project.

Extra goal includes adding the landing page to the ndatlas server and finalizing the draft page for the maps.
